To: **Booking.com**

For the job role: **Senior Back-End Engineer**

Hello,

I'm applying for your job vacancy because I feel confident in being a good candidate for your position and I can be positive and helpful in the team to make Booking.com even bigger than this. I've also had many advises to apply for Booking.com because of having a number of friends working there. I hope I'll receive your positive feedback.

Best regards,
