- ✓ Problem Solving
- ✓ Attention to Detail
- ✓ Team Collaboration
- ✓ Continuous Learning
- ✓ Reliable and Committed
- ✓ Fast Learner

PROFILE

Software Test Engineer with experience in software testing and a strong background in software development. Experienced in manual and automated testing, test planning, test case design, Python, pytest, Jira and Confluence. My development background helps me understand software from both a technical and quality perspective, communicate effectively with developers, and approach problems in a structured way. I enjoy learning, improving testing processes and contributing to reliable, user-friendly software.

WORK EXPERIENCE

DeKrypt BV

Software Test Engineer
June 2024 - August 2026
Amsterdam, Netherlands

- Developed and maintained automated tests using Python and pytest.
- Created test plans, test scenarios, test cases and test reports for new features.
